## **About the Japan Foundation Logo**

The Japan Foundation strives to be a globally active catalyst in order to communicate the appeal of Japanese culture, strike a chord with the people of the world, and foster mutual understanding through international exchange activities.

### **The “j and f” Motif**

The wings of the logo’s butterfly design form a lowercase j and f in cursive script, conveying our posture as a flexible and friendly cultural ambassador.

### **The Concept of Graceful Flight**

The emblem’s sleek gracefulness symbolizes freedom from ignorance and prejudice, the dynamism needed to achieve mutual understanding that transcends borders and cultures, and intellectual creativity.

### **The Butterfly Design**

The center of the logo’s butterfly design represents Japan. The soft contours emerging from and returning to the center express the foundation’s unending desire to serve as a medium for transmitting and receiving culture, art, language, and thought between Japan and of the rest of the world.

### **The Color Purple**

Purple has been our signature color since the establishment of the Japan Foundation.
