### Support Program for Translation and Publication on Japan

The Japan Foundation provides financial assistance for foreign publishers to translate and/or to publish Japan-related books under the Support Program for Translation and Publication on Japan. The program aims to promote better understanding of Japanese culture and Japanese studies overseas by enabling the reduction of the selling price, thus making books more accessible to the general public, especially books that are difficult to publish commercially. More than 1,500 books have been translated for publication through this program since the year 1974.

Provided that the translations are of adequate quality and appropriate publication plans are submitted, the grant will cover up to 60% at the maximum of the actual amount of the following costs incurred and paid during the applying fiscal year:

a) Translator's fee

b) Production costs (costs for paper, plate-making, printing, binding, etc. paid to printing companies, etc.)

However, for the titles listed in this publication, *Worth Sharing*, the grant will cover up to 80% at the maximum.

As the program year runs from April through March, the program will be announced worldwide in the autumn of the prior calendar year through the Japan Foundation overseas offices and Japanese diplomatic missions for publication projects to be completed within the following program year.

For more information, please refer to the program guidelines available on the Japan Foundation website:
